Figure 8

Figure 9

Figure 1 consists of 12 bar charts (a-l) showing the percentage of total sample for various categories across different age groups (18-24, 25-34, 35-44, 45-54, 55-64, 65-74, 75+). The categories include: a) Education level, b) Employment status, c) Income level, d) Housing tenure, e) Car ownership, f) Travel frequency, g) Travel mode, h) Travel purpose, i) Travel satisfaction, j) Travel frequency, k) Travel mode, and l) Travel purpose. Each chart shows a general trend where certain categories are more prevalent in younger age groups and others in older age groups.
